## Vision

All Oklahoma students deserve a comprehensive, applicable program of visual arts instruction, by certified and qualified teachers. The art curriculum will be designed to provide every student with visual art skills and knowledge in accordance with national, regional, and state standards.

Art Educators strive toward rigorous standards and efficacy in preservice preparation, ongoing professional development, pedagogy, ethics, and inquiry in the field.

The curriculum-based art instruction in schools will be enhanced with access to art museums and community education programs complementing school-based art education to reach learners of all ages.

**Sponsors and Friends:** OAEA is affiliated with the National Art Education Association (NAEA) Oklahoma Alliance for Arts Education, Oklahomans for the Arts, Oklahoma Arts Council, Oklahoma Arts Education Coalition, \*Create OK, Oklahoma Arts Institute, Oklahoma Center for Arts Education, Oklahoma State Dept. of Education, Oklahoma Universities, Oklahoma City Museum of Art, the Kirkpatrick Foundation and others.

## History of OAEA

The Oklahoma Art Education Association was initiated in 1960. Art Educators from around the state joined together establishing a Constitution and Bylaws governed by an elected group of executive board members and appointed officers. Each board member is a volunteer serving a two year term for the association in promoting OAEA vision and goals with fundraising and public education strategies.

## Goals

**Learning:** OAEA will sponsor and provide ongoing professional development to meet the needs of all art educators through statewide conferences, regional mini-conferences, advocacy initiatives, and publications.

**Community:** OAEA will build a more cohesive professional community among art educators, museum personnel, school administrators, and arts organizations.

**Advocacy:** OAEA will effectively communicate the importance of student and life-long learning in the visual arts to art educators, policy makers, parents, and the community.

**Research and Knowledge:** OAEA will increase its value to members by assessing programs and services that inform practice, and by expanding the access to information on current research and emerging policy issues that affect art education.
